MUSICAL THEMES

Three Leitmotifs

Recurring sounds weave the story together

CATHY’S THEME

The thrill of adventure, courage, and the bond that holds an extraordinary crew together.

JOY’S THEME

Warmth, curiosity, and the question of where she truly comes from.

NEBULOR’S THEME

The haunting “whoooo” motif: at times threatening, at times sorrowful, always filled with longing.

BEHIND THE SCENES

How It All Began

From a short TV jingle to a complete audio musical

It began with a small series of images created in DAZ Studio. A short television-style jingle was meant to accompany the characters. But with every experiment, the music grew.

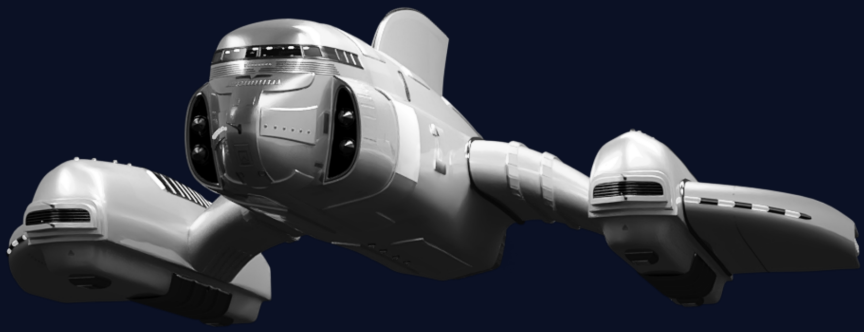

The first song led to new musical numbers, recurring voices and, eventually, spoken scenes connecting the story.

This non-commercial passion project took shape over time. The music was created with Suno; ideas and lyrics were developed and refined, in part, with the help of ChatGPT.
